

PATIENTS AMONG US

As the Chief Executive Officer of the Mid Fairfield County Chapter of the American Red Cross, Dianne knows the importance of being prepared for an emergency.

But after experiencing complications following the birth of her son in 1991, she learned first-hand the importance of a safe and sufficient blood supply.

After undergoing several blood transfusions, Dianne is grateful to those who donated blood when she needed it.

“My family and I will always be grateful that when I needed help, the Red Cross was there with a safe and secure blood supply.”

Many people say they have never donated blood simply because they have never been asked.

Please, Consider Yourself Asked.

The difference you'll make in the life of a patient simply cannot be overstated.
